Professional Summary

B.E. Artificial Intelligence & Data Science graduate with hands-on experience in software development, web and Android application development, and AI/ML projects. Completed Python Full Stack Development training at TAP Academy and an Android App Development internship at MindMatrix. Skilled in Python, JavaScript, Django, Flask, SQL, and modern development tools. Strong problem-solving, communication, and teamwork abilities with a keen interest in building real-world software solutions.

Experience

Android App Development Intern Feb 2026 – May 2026
MindMatrix (MoU Partner of VTU) *Remote*

- Developed Android applications using Kotlin and Jetpack Compose.
- Worked with Android Studio, Google Cloud Labs, and Google AI Studio to explore Generative AI capabilities in application development.
- Involved in UI/UX design, application prototyping, feature development, debugging, and iterative enhancements.
- Worked on project-based learning including Firebase integration, testing, and standard Android development workflows.

Python Full Stack Development Trainee June 2026 – Present
TAP Academy *Bengaluru, Karnataka*

- Undergoing structured training in Python, Java, SQL, JavaScript, Django, Flask, HTML, CSS, REST APIs, and databases.
- Practicing programming, SQL queries, CRUD operations, database integration, API development, debugging, and testing.
- Using Git, GitHub, Postman, and Visual Studio Code for development, API testing, debugging, and version control.

Technical Skills

Programming Languages	:	Python, Java, JavaScript, SQL
Frontend	:	HTML, CSS, JavaScript, React, TypeScript, Bootstrap, Tailwind CSS
Backend	:	Django, Flask, REST APIs, JSON
Database	:	MySQL, SQLite, MongoDB, SQL Queries, CRUD Operations
Android Development	:	Kotlin, Jetpack Compose, Firebase Firestore, Android Studio
AI / ML	:	TensorFlow, Keras, Scikit-learn, OpenCV, YOLOv5, UNet, Grad-CAM
Tools	:	Git, GitHub, Postman, Visual Studio Code, Google Cloud Platform
Concepts	:	OOP, Data Structures, Problem Solving, API Integration, Debugging, Testing

Projects

NOVA – Fashion E-Commerce Platform | Django, MySQL, HTML, CSS, Bootstrap Live Demo

- Developed a full-stack e-commerce application with functionality for managing products, customers, and orders.
- Implemented CRUD operations, database integration, forms, and application workflows using Django and MySQL.
- Worked on frontend and backend integration to deliver a seamless user experience.

PHISHIELD – Phishing URL Detection System | Python, Flask, React, TypeScript Live Demo

- Developed a web application for detecting potentially malicious URLs using machine learning.
- Built REST API endpoints and integrated frontend components with backend services.
- Implemented input validation, API integration, debugging, and testing across the application.

ServiceFlow – Service and Task Management System | Python, Django, SQLite

- Built a web-based service and task management application using Python, Django, and SQLite.
- Implemented CRUD operations and database integration with forms and application logic.
- Focused on debugging, testing, and improving application workflows.

Education

B.E. in Artificial Intelligence and Data Science 2022 – 2026
Srinivas Institute of Technology, Mangaluru *Visvesvaraya Technological University*
